SKILLS

Languages: C/C++, HTML, CSS, JavaScript, Ruby on Rails, React, Java
Tools: Git/GitHub, Node.js, VS Code **Database**: MySQL, MongoDB

EXPERIENCE

Scaler/InterviewBit | *SDE Intern*   March 2023 – Present
- Implemented AWS S3 bucket versioning for all attributes, resulting in a 20% increase in SEO team's ability to identify top-performing versions. Content creators achieved a 15% enhancement in the quality of both existing and new content, thanks to easy access to historical versions and data-driven insights."
- Overhauled the article listing API, replacing an inefficient n+1 query approach with a single query system, reducing response time by an impressive 25%.
- Collaborated on course landing and listing pages, amplifying user engagement by 30% and streamlining course registration, elevating the user experience.
- Vigilantly delivered on-call support for three months, swiftly resolving issues, and consistently ensuring high user satisfaction.
- Developed comprehensive test cases, expanding test coverage by 20%, pinpointing and resolving critical edge cases, thereby enhancing software reliability and robustness.

PROJECTS

Relier | *Technology Used: React.js, Node.js, Express, MongoDB, Socket.io* 🚀   January 2022
- Developed real-world social networking application that uses a REST API for registration, login, and all other CRUD operations.
- Moreover, it has a responsive messaging platform that makes use of react hooks, socket IO for sending private messages, and MongoDB for data storage.

Code-with-Companion | *Technology Used: React.js, Node.js, Express, Socket.io, Tailwind.css* 🚀   January 2022
- Developed a website where users can share a special URL and invite other people to join them for a video chat.
- The website's built-in code editor also allows users to alter one another's code and compile it in several programming languages that may be saved.
- Users can also draw out their ideas using a whiteboard and they can record the entire session and store it in your downloads.

ACHIEVEMENTS

Winner Team and Team Lead at Code-a-thon among 100 teams.
24-Hours Hackathon organized by Programming Pathshala at Lovely Professional University, Phagwara

Under 55,000 in LeetCode Ranking
LeetCode (Last Update: September 2023)

75 Rank in Geek for Geeks Leader Board
In Lovely Professional University, Phagwara (Last Update: September 2023)

2 Star on CodeChef and **Newbie on Codeforces**
1589 Highest Rating on CODECHEF and 990 Rating on CODEFORCES (Last Update: September 2023)

EDUCATION

Lovely Professional University, Phagwara   2020-2024
Bachelor of Technology (Computer Science Engineering)   *CGPA: 8.56*

Birla Public School, Pilani   2018-2020
CBSE Sr. Sec School   *Percentage: 86.4%*
